Subject: Omni & Rain for Rent Proposal for Pipeline

Matt,

Attached is our proposal for the pipeline you discussed with Rain for Rent. As in the dewatering work, Rain for Rent and Omni will provide the equipment and services under an Omni Work Order with Environmental Restoration. This represents a new Work Order to cover this specific scope of work. The file was too large to attach schematics of the proposed work, I'll send those in separate emails.

If you have any questions, please let me know and we can arrange a call with the appropriate people at your convenience.

If you are ready for us to proceed, please give us an email indication as such and we will schedule mobilization.

Thank you again for the opportunity to bid on this project.

Regards,

Warren

Matt,

Thank you for your confidence in Omni. We will begin mobilizing equipment and return the required documentation as quickly as possible.

Subject: FW: Omni sludge dewatering proposal

Richard,

As discussed, I am requesting that you provide ER a verbal to approve the attached subcontract proposal. The appropriate insurance, wage information and other information has been requested.

I have evaluated the proposed technical approach and pricing and consider it reasonable. The current costs for 2 weeks of operation and mobilization is approximately \$70,000 based on a mobilization cost of **CBI/Ex. 4** a daily operating cost of **CBI/Ex. 4** day in chemical supply, lodging and per diem. A determination as to the need to continue beyond 2 weeks will be made following the initial performance.

The need to manage heavy metals sludge accumulating in the temporary treatment ponds is critical to the successful treatment operations now underway at the Gold King Mine site. The potential for continued sludge management in the short-term will be determined in

conjunction with the pending plans to move the flow from the current drainage and temporary pond system to a more suitable location (Red and Bonita Mine Site retention pond), which may also be temporary.

I have advised the contractor and the ER, LLC Response Manager that you have indicated to me your verbal approval.

Thank you,

Steve

Matt,

As discussed. Thank you for your consideration. Please respond with your approval to proceed and we will begin mobilizing equipment.

Regards,

Warren
